# OPEN LETTER

"WE CAN NOT WAIT ANYTHING TO CHANGE FROM OUTSIDE, BUT, SHOULD KNOW HOW TO FULL STOP AND GO BACK. BECAUSE GETTING OUT IS GOING BACK TOO..."

Reference in the memoirs "The Journey to the East" of Prof. Blair T. Spalding (1857-1953) to share with all of you the meaning of our company's name: "Viet Pilgrim ". A long way journey, traveling is not only exploring or doing things that brings relaxation, fun, and knowledge for ourselves; but its significant journey is the discovery and experience; returning with ourselves and finding the source...

We are pleasure to accompany you across the long way, high mountains, deep seas, large forests, steep slopes; for exploring corners, temples, pagodas, churches, ... returning to historical monuments and military bases as well as nature reserves... With the desire to bring multiple joy from each exciting journey, the visitors could create the chance to make friends with kind people, establish the love with the beauty of nature, enrich life skills, gain more knowledge of cultures as well as history and art; You also can have more time to discover, the unique natural beauty...

Practically, these are the occasions to find the memories, "lighten" the mystery, recognize the source of ideas, beliefs, religions that for each of us are always hidden in the mind and of busy daily life. These are also the chances to retrace our ancestors; find the traces of the battlefield and the old teammates ...Thanks to this, because you will feel more attached to life, willing to share the joy, sadness with each other, to cherish more the existence of yourself and continue to follow up the nature's values "Truth – Morality – Beauty".

With several years of experience, the team leaders and staff of Viet Pilgrim as well as the Tourism Companies all over our country will be a reliable source, addressing all of you to come and see by choosing us to accompany you on these fun, meaningful and useful trips.

Our mission is to serve with high responsibility and continuous learning and reflection to enhance the prestige, quality, and provide quality time of service as well and also to develop the company's sustainability. We would like also to serve with lasting cooperation with the "traditional" customers namely: all Vietnamese and Vietnamese Overseas; People that come from our neighboring country like Laos, Thailand, Cambodia, China, Korea, Singapore, Myanmar, Philippines, Indonesia, Malaysia, Taiwan... We warmly welcome the international visitors from the horizon "Western looking for the East" ...

Let's join together and experience with us to recognize, that Viet Pilgrim is not only a business, but a partner with no limitation; We have long come trustworthy, friendly companion to all travelers on the journey to explore, to conquer the good values of themselves and the world!

*Ranting with sincerity and honesty*
